

2016 Annual Report

OUR MISSION

Improving the lives of children and their families coping with childhood cancer or chronic blood disorders by providing emotional, educational, social and financial assistance; promoting and funding research towards a cure.

Our Impact 2016

Dear CURE Childhood Cancer Association
Supporters and Friends,

CURE Childhood Cancer Association celebrated our 40 year anniversary in 2016. For forty years, CURE has been at the forefront of helping families during their toughest days through a childhood cancer or chronic blood disorder diagnosis and treatment. In 2016, we expanded upon our Parent Advocate Support Program, adding a second Parent Advocate to the staff to ensure the needs of our families are met. We also expanded programming, offering two Parents' Night Out events. We look forward to 2017 where we will continue to develop and enhance our programming, reaching our families in new and different ways!

About CURE

CURE Childhood Cancer Association was founded in 1976 after a group of parents lost a child to cancer. CURE (Counseling Understanding Resources/Research Education) provides support to children and their families coping with childhood cancer or chronic blood disorders. Founded under the principle of parent advocacy, CURE has made it a priority to care for children and their families, especially parents, during this difficult time. The partnership between Golisano Children's Hospital and CURE Childhood Cancer Association has been used as a model for other organizations across the country.

Our Parent Advocates are parents of childhood cancer survivors – peers to those parents who are hearing the words “Your child has cancer”. Whether the needs of the families are financial, educational, emotional or social, CURE's staff of two full time employees and three part time employees does everything they can to ensure families do not feel alone. We are here to help families through the various non-medical needs that arise following a diagnosis. The support ranges from small expenses, such as parking passes for Golisano Children's Hospital, to larger expenses, such as car payments, utility bills or, sadly, funeral expense assistance. These services do not have a lot of fanfare. They aren't glamorous, but they are incredibly important. The support provided by the staff at CURE Childhood Cancer Association is support that our families would not have otherwise. ...because kids can't fight cancer alone.
